12.

Kisha Forca e Jezusit

€4800

PROJECT: The leaders and sponsors of an existing project that cares for people with disabilities and those who are disadvantaged have embraced Adventist faith and wish to integrate these individuals into the local Adventist church through their missionary work. Due to the leaders' age, a succession plan needs to be established, and this presents an opportunity to establish a branch of an Adventist church in the Muslim part of Albania, where there is currently no Adventist church. The advantage is that the local Adventist church and its pastors are involved and have shown great interest in this project, and are willing to send missionaries to this city to support the local operators.

Living Well

€5000

PROJECT: LivingWell serves as a wellness and lifestyle centre. It opened its doors to the public mid-September 2025, primarily offering well-being treatments (different types of massages - i.e. chair massage, localised massage with oils, aromatherapy massage, maderotherapy massage, pre-natal/post-natal massages) combined with lifestyle services and educational programmes (bioimpedance analysis, workshops, cooking demonstrations). Its mission is to inspire people to live balanced lives, by providing a place to renew their energy and improve their physical, mental and spiritual health. The centre has a holistic approach to the person and operates in harmony with the Bible, the Spirit of Prophecy and evidence-based medicine.

Weekly Bible Study and Christian Community Building

€1700

PROJECT: Many people today desire to read and understand the Bible, but they lack an environment where they can ask questions, receive encouragement, and be part of a welcoming Christian community. There is a lack of regular, accessible Bible study in a small group setting where people feel comfortable sharing, asking questions, and growing in their faith. This is what we provide. The goal of this project is to offer sustainable weekly Bible study meetings that help people: understand God's Word, build a personal relationship with God, become part of a supportive Christian community, receive encouragement, prayer, and spiritual growth.

Project Revelation

€4000

PROJECT
REVEL
ATION

PROJECT: Project Revelation is a social media and community-based project that reaches out to younger generations (GenZ in particular) with Adventist messages and biblical truth. In light of the declining church growth of Seventh Day Adventists and our struggle to reach younger generations we believe that we need to break new grounds to bring our Adventist messages to younger generations. Under a new brand the project team will produce a main series with 30 animated episodes that embedded in a frame story does tell the overarching story of Ellen G. White's Great Controversy chronologically from the Fall of Lucifer in heaven to the return of Christ imbedded in a frame story Each episode will come with podcasts, real-talks, round tables and other formats to deepen its biblical understand.

AFCOE Europe Mission Training 2026

€14,700

PROJECT: AFCOE Europe helps people begin. Here young (and a few mature) people are given not only inspiration, not only an understanding of our beautiful Adventist message, but also tools and skills in the science of soul-winning. Our motto is: training tomorrow's soul-winners today, and our program is very much a hands-on training conducted in close cooperation with the newly planted church in Lund, a renowned international university town. The students learn personal and public evangelism, how to give Bible studies and how to gain decisions for Christ. The funds from ASI Europe would be used to cover costs and stipends for the team members we need to bring in this fall in order to run our 4-month main course and all the outreach it includes. We need an outreach coordinator + chef and dean.

62. LifeStyle 74 Radio

€25,000

PROJECT: LifeStyle 74, on the air over the past 44 years, is an established radio broadcasting ministry covering the Swiss Romand and adjacent France on FM and DAB+. Our health, family, Bible teaching, news, public affairs and educational programming reaches many thousands of listeners each day in English and in French.

LifeStyle 74, on the air 24 hours a day, is making friends for Jesus and His church, teaching the authentic Adventist message via radio and online. This ministry is almost entirely financed by donations from listeners, some 90% of which are non-Adventists. We've operated on an austerity budget for several decades. Additional funding from ASI will be used to improve programming quality. We urgently need AI audio software to convert the abundance of available English programming into French and other languages. Funding from ASI-Europe will be used for this project.

Seeds of Life Academy

€2000

PROJECT: Many young people today are physically present in church but spiritually disconnected. They don't reject God, they simply don't know Him personally. Because of this, there is little interest in using their time for meaningful activities or studying the Bible, and many are ashamed to share their Christian faith. Some mission school alumni are demotivated and have returned to their old lives. The goal of this project is to re-motivate these young people to actively participate in mission work.

66. DBG Bible 3rd Edition

€8000

PROJECT: The goal of this project is to prepare and publish the 3rd Revised Edition of the Dzisiejsza Biblia Gdańska. We aim to: Perform approximately 850 hours of intensive editorial work to correct errata and refine the text. Integrate a comprehensive system of footnotes and explanations to aid deeper understanding. Execute a professional graphic layout and typesetting (approx. 200 hours) to improve readability. Print 10,000 copies of the new edition. The requested funds will specifically cover the editorial and pre-press costs. By subsidising the "brain-work" of the project, we can set the final retail price at approximately 30 PLN (approx. 7 EUR), ensuring that price is never a barrier to owning a high-quality Bible.

67. The Heritage Series

€8000

PROJECT: Springs of Life aims to facilitate the pan-European distribution of these new versions of EGW books focusing on small or resource-limited countries. Our goal is to take the burden of editorial supervision and graphic layout off the shoulders of local ministries.

We intend to use the requested funds to: Provide Editorial Oversight: Managing the complex integration of biographies, historical facts, and trivia into the translated text (approx. 80 hours per book). Execute Professional Graphic Design: Performing the complete DTP and layout for the full-color versions (approx. 100 hours per book). Subsidise Printing Costs: By optimising our production line, we will offer a subsidy of €0.43 per copy for a print run of 10,000 units of The Great Controversy for selected (smaller or more resource-constrained) countries. This allows partner countries to receive the book at a highly competitive price of €1.25 per copy, making mass distribution financially viable.

Gideon Rescue Co. Europe Missions 2027

€5000

PROJECT: The Adventist Church already has ADRA which does things for suffering people on a large scale, but often very disconnected from our message. Gideon Rescue Co. Europe's desire is really to put our MESSAGE FIRST while not neglecting to help the physical needs of humanity. Think of Gideon Rescue as disaster zone literature evangelists who also have some skills to be of help for people in their time of need. If we do not give our message in the disaster zone we have failed in our mission. The Uniforms and skills we have only there to make our work more official, while giving what most organisations do not, or cannot give, and that is Hope and our message. We need funds to help share the 3 angels messages in the disaster setting. We don't have a fixed cost, and it's hard to budget what we will need before we even know where or when the disaster will be.

ONE BOOK IN
EVERY HOME

IN NORTH AMERICA AND EUROPE
BY 2030

PROJECT: Streams of Light International brings hope and healing to the world through comprehensive evangelism—training and mobilizing lay members to reach every home, especially in large cities, with the everlasting gospel as revealed in the three angels' messages. The funds will be used to purchase Great Controversies. We are only applying for funds for books to support local churches.

Aménagement d'un Centre d'Influence a Paris

€3500

PROJECT: The project aims to develop a Christian community center in Paris, designed as a welcoming space for well-being and witness, allowing the message of the three angels to be shared in a concrete and accessible way. Following the opening of an already operational Adventist bookstore, the project is entering a phase of structuring and development. The objective is to offer an integrated program combining: spiritual activities (Bible studies, book club), cultural activities (thematic workshops), health programs (including the BreakFree program and partnerships with Adventist health centers), as well as a selection of specialized products.

PROJECT: Our primary goal is to provide an annual gathering where young people can build a Christ-centered community—not focused on entertainment, but on worship, prayer, and learning. We organize a 5-day conference each year, bringing together young people from across Hungary who desire to deepen their understanding of the Bible, Adventist history, and principles. Since our founding in 2011, we have held this event annually, with only one brief interruption during the COVID-19 pandemic. Attendance typically reaches around 100 participants on weekdays and up to 500 on Sabbath. In addition to the conference, outreach has become a central component of our mission. Initially, outreach activities were limited to conference programs, often involving visits to social institutions such as orphanages or elderly homes. In 2026, we expanded into urban ministry. During one outreach in a busy area of Budapest, we focused on the biblical message of rest and the Sabbath. We engaged passersby through personal conversations, offered tea, distributed literature, and organised a children's program. The response exceeded expectations—we distributed all available Bibles and connected many individuals with local churches.

Malina, Primary School & Forest Kindergarten

€2000

PROJECT: Our intention is to gradually build a kindergarten and a primary school, which will include a farm (economic projects, animal husbandry, agriculture, self-sufficiency, craftsmanship, food processing) and where children will be able to practically experience NEWSTART. The facility is based on the principles of education described by E.G. White in her book Education.
